

Sparks gathering

Émilie Borgo - Learner

November 2014

January 2015 Budapest & Bratislava

Spring & autumn 2015 Paris - French team in Soma & Maïa

April 2016 Liverpool

Spark support me a lot to formalize the implicit of experience

It's give me perspective trough a friendly experience (to be welcome in several counties, spaces & live different experiences). I come back feeling part of a largest community with a huge support to renews my practices of dance & somatic with the desire to offer news spaces around sensitivity & creativity for specials needs.

I come back with some essentials about how to teach & learn in an active process & a dynamic way for persons with specials needs :

- Creativity, senses & perceptions as a motor
- A way to learn through experience & observation
- Trust, a-tuning, respect, listening as foundation
- The active commitment of the learner & helpers in the process
- The balance in-between risk & comfort
- Open the capacity to be disagree & to take decisions
- From a learner to a teacher

From Hungary i keep a strong model of human cooperation in an horizontal way

From Slovakia a space where all the family is on the centre of the work

From U.K. A creative, poetic & precise model where the person with specials needs is on the centre of the process

From France an institutional model

Récit d'expérience

L'art de la confiance et du partage pour apprendre

Sparks m'a donné de la perspective à travers l'expérience du compagnonnage (être accueillie dans différents pays, espaces, et traverser différentes expériences). Je repars en me sentant appartenir à une communauté plus large qu'auparavant, avec du support pour renouveler ma pratique de la danse et du somatique s'adressant aux personnes en situation de handicap et avec le désir d'oofir de nouveau espaces autour de la sensibilité et de la créativité.
